4. Customers with characteristics of vulnerability

The product is designed for older borrowers which is likely to include some customers with characteristics of vulnerability or who will experience vulnerability over time.

Older borrowers may not have a comprehensive understanding of the mortgage market. Therefore, they may require additional advice and support to ensure they understand the information being presented to them and the implications of the arrangement they are entering into to reduce the risk of harm occurring.

Older borrowers are likely to experience health and bereavement problems during the term of the mortgage which may impact on their ability to deal with their affairs or maintain the mortgage payments.

To support this, we have produced a fact sheet that explains the consequences of taking out the mortgage and where support, help and advice is available from.

We also have a contact strategy which means we will contact the borrower(s) at regular intervals to make sure their circumstances have not changed or to offer help and support where they have.

Our colleagues have been provided with the relevant education and training to ensure they have the appropriate skills and experience to recognise and respond to the needs of vulnerable customers and our communications also support the needs of vulnerable customers.

Where we identify a vulnerable customer, we have monitoring in place to ensure we continue to meet and respond to the needs of customers with characteristics of vulnerability.

We have tested the product to assess whether it will meet the identified needs, characteristics, and objectives of the target market, including customers in the target market who have characteristics of vulnerability,

Intermediaries should continue to comply with their obligations to ensure that they treat customers in vulnerable circumstances fairly.

Please contact us if you need any further information about how we support the needs of all our customers in relation to the product.

5. Our assessment of value

We have developed a comprehensive and robust assessment process which evaluates several aspects of our business to determine the value of our mortgage product. This analysis is used to ascertain whether the product delivers fair value for customers.

The outcomes of the assessment process are presented to our Operational Regulatory Risk Committee allowing for challenge and further investigation before we sign-off the outcomes and share the summary of our assessment with you.

Our fair value assessment has considered the following:

| | |
|---------------------|--|
| Benefits: | The range of features that the product provides, the quality of the product, the level of customer service that is provided and any other features that the product offers. |
| Price: | The interest rates, fees and charges customers pay for the product. Comparable market rates, advice fees paid to intermediaries and non-financial costs associated with opening the product. |
| Costs: | The cost of funding the product and any other reductions in costs to the customer made possible by trading conditions. |
| Limitations: | Any limitations on the scope and service we provide or the features of the product. |

Results of our assessment

Our assessment concluded that the product continues to deliver fair value for customers in the target market for the product.
