Can Marsden Building Society change the interest rate?	The interest rate is fixed which means that we will not change the interest rate payable on your account prior to maturity on 31 October 2023.										
What would the estimated balance be after 12 months based on a £5,000 deposit?	If you saved £5,000 the estimated balance after 12 months would be £5,047.50. This example assumes an investment of £5,000 is made on 1 November, no withdrawals or further deposits are made throughout the 12 months, the interest earned is added to the account, and no changes are made to the current interest rate. It is provided for illustrative purposes only and does not take into account your individual circumstances.

For more information, please visit gov.uk and search for 'Personal Savings Allowance'.</p> <p>†AER stands for the Annual Equivalent Rate and shows you what the interest rate would be if interest was paid and added each year.</p> <p>We will contact you with your maturity notice at least 14 days prior to the maturity date of your Fixed Rate Bond.</p>
